**LUBES**

Environment  
Friendly

Reduces  
NOx  
Pollution

Clean,  
non-toxic  
liquid

Lower  
Particulate  
Emission

Better Fule  
Economy

**PREMIUM DIESEL EXHAUST**

# FLUID

\*Recommended for BS-IV & BS-VI Diesel Vehicles

## POWER TO PERFORM

**Earthcon Lubes Limited** has experience and expertise in manufacturing chemicals, thermosets materials and formaldehyde with a dedicated unit for DEF Manufacturing. We aspire to be a market leader in the industry by 2030.

Our state-of-the-art DEF plant, situated in the Khushkhera Industrial area has a capacity of producing **8400 KL** per month. The plant is based on cutting-edge technology with automatic bucket filling machines and a fully equipped laboratory for rigorous quality control. We ensure high quality and environment friendly products for our customers. With a strategic location of 50 km from Gurgaon, we're well-positioned to serve our customers efficiently across locations.

As we continue to witness growing demand, we remain open to expand our facilities nationwide, embracing the latest technologies, thereby attaining our production targets.

At Earthcon, we're committed to driving excellence, in manufacturing and delivering value to our customers.

## Mr. Kuldeep Singh

Leveraging 27+ years in automotive sales, service, and finance, with a track record at JK Tyres, Ceat, Magma Fincorp, MAN Truck, and TVS. A seasoned professional driving Earthcon's success with diverse industry expertise.

## Mr. Manish Kheria

With over 20 years of expertise in chemical manufacturing, Manish Kheria is a driving force behind Earthcon's success

## DEF (DIESEL EXHAUST FLUID)

Superior protection  
for the SCR catalyst

Prevents gummy  
deposits in the tail  
pipe

Prevents fouling/clogging  
of Spray nozzles

**PRODUCTION CAPACITY**  
8400 KL/Month

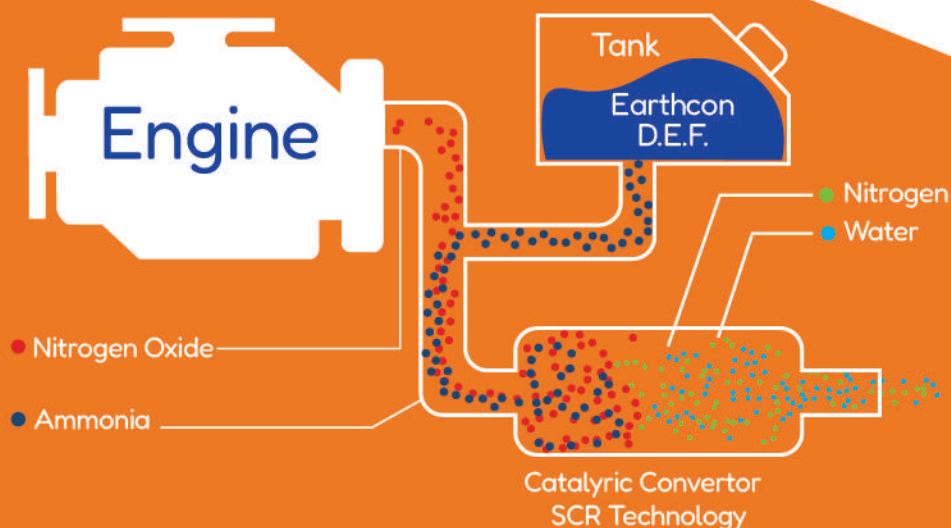

**AUTOMATIC BUCKET FILLING MACHINE**  
2, 60, 000 buckets/Monthly

At Earthcon, quality is our cornerstone, meticulously upheld through stringent processes and unwavering dedication. We ensure excellence in every product, adhering to the highest industry standards, as evidenced by our prestigious quality certificates.

## How It Works

“CRAFTED WITH PRECISION, DRIVEN BY QUALITY, OUR PRODUCTS REDEFINE EXCELLENCE”

# INSIDE EARTHCON

## STEP 1

### RAW MATERIAL

Transforming raw materials into quality products, our meticulous process ensures excellence from the ground up.

## STEP 2

### MANUFACTURING

With precision and expertise, we bring concepts to life, crafting each product with care and attention to detail.

## STEP 3

### TESTING & PACKAGING

Rigorous testing ensures our products meet the highest standards of quality and reliability before they are expertly packaged for delivery.

## STEP 4

### STORAGE

Our storage facilities provide a secure environment, ensuring products remain in optimal condition until they reach our valued customers.
